SUMMARY

Motivated undergraduate with a strong focus on full-stack web development and Generative AI. Experienced in Python, JAVA, JavaScript, React, Node.js, and PHP with hands-on experience building AI-powered and RAG-based applications. Seeking an internship to contribute to innovative projects and grow within a professional development environment.

EDUCATION

Bachelor of Applied Information Technology (BSc in Applied IT) – GPA: 4.0

Sri Lanka Technological Campus (SLTC), Padukka, Sri Lanka

(Jan 2023 – Present)

A practical, hands-on degree focusing on real-world IT skills including software development, full-stack web development, AI & Data Science, IoT, cybersecurity, networking, and data management.

SLGTI Exam (2022 - Cs2137)

Having passed the Sri Lanka German training institute exam

PROJECTS

Documind-AI-Multiagent – (2026)

Developed an AI-powered multi-agent RAG system using Python and React that analyzes uploaded documents and intelligently answers user queries. Implemented Pinecone vector search, LangChain agents, and a FastAPI backend to enable document summarization, comparison, insight retrieval, and response validation from PDF files.

(<https://github.com/YasithWijesuriya/DocuMind-AI-MultiAgent-RAG>)

Multi-Agent Research assistant-system – (2026)

Developed a Python-based, LangGraph-powered multi-agent research assistant with a React frontend that automates research, analysis, writing, fact-checking, and critique using specialized AI agents. Implemented state-driven execution, conditional routing, iteration control, and an extensible modular architecture to support scalable and efficient research workflows.

(<https://github.com/YasithWijesuriya/Multi-Agent-Research-Assistant-System>)

Mebius – (2025)

Built a full-stack MERN e-commerce clothing website with product listing, user authentication, cart management, and order processing features.

(<https://github.com/YasithWijesuriya/MERN-clothify-Frontend>)

(<https://github.com/YasithWijesuriya/MERN-Clothify-backend>)

KV- audio – (2025)

Built a full-stack MERN application for an audio equipment rental business, with product browsing and booking features.

(<https://github.com/YasithWijesuriya/kv-audio-frontend>)

(<https://github.com/YasithWijesuriya/kv-audio-backend>)

NATURE Clothing Website – (2024)

I have created a brand called 'nature' as an online business and run a business selling clothes through it, this is a website created for it.(PHP)

(https://github.com/YasithWijesuriya/Nature_Clothing-Website)

Aroma coffee – (2025)

Built a dynamic website for a coffee business using PHP, featuring product listings, contact form, and basic order functionality.

(https://github.com/YasithWijesuriya/Aroma_Coffee)

Certifications & Courses

- stemlink – Full stack web development course
- stemlink - Generative AI certification program
- SKYREK – Full stack web development course
- FIND X (PVT) LTD – Java language course
