Customer-Driven Marketing Strategy

Market Segmentation

To market more effectively, it is better to divide your market into smaller segments of buyers with distinct needs, characteristics, or behaviors that might require separate marketing strategies or mixes.

When segmenting consumer markets, there is no single way to segment the market. Marketers try different segmentation variables, both alone and in combination, to find the best way to approach market restructuring

Major Segmentation Variables

Geographic

- Country
- Region
- District
- City

Demographic

- Age
- Gender
- Education
- Religion
- Generation

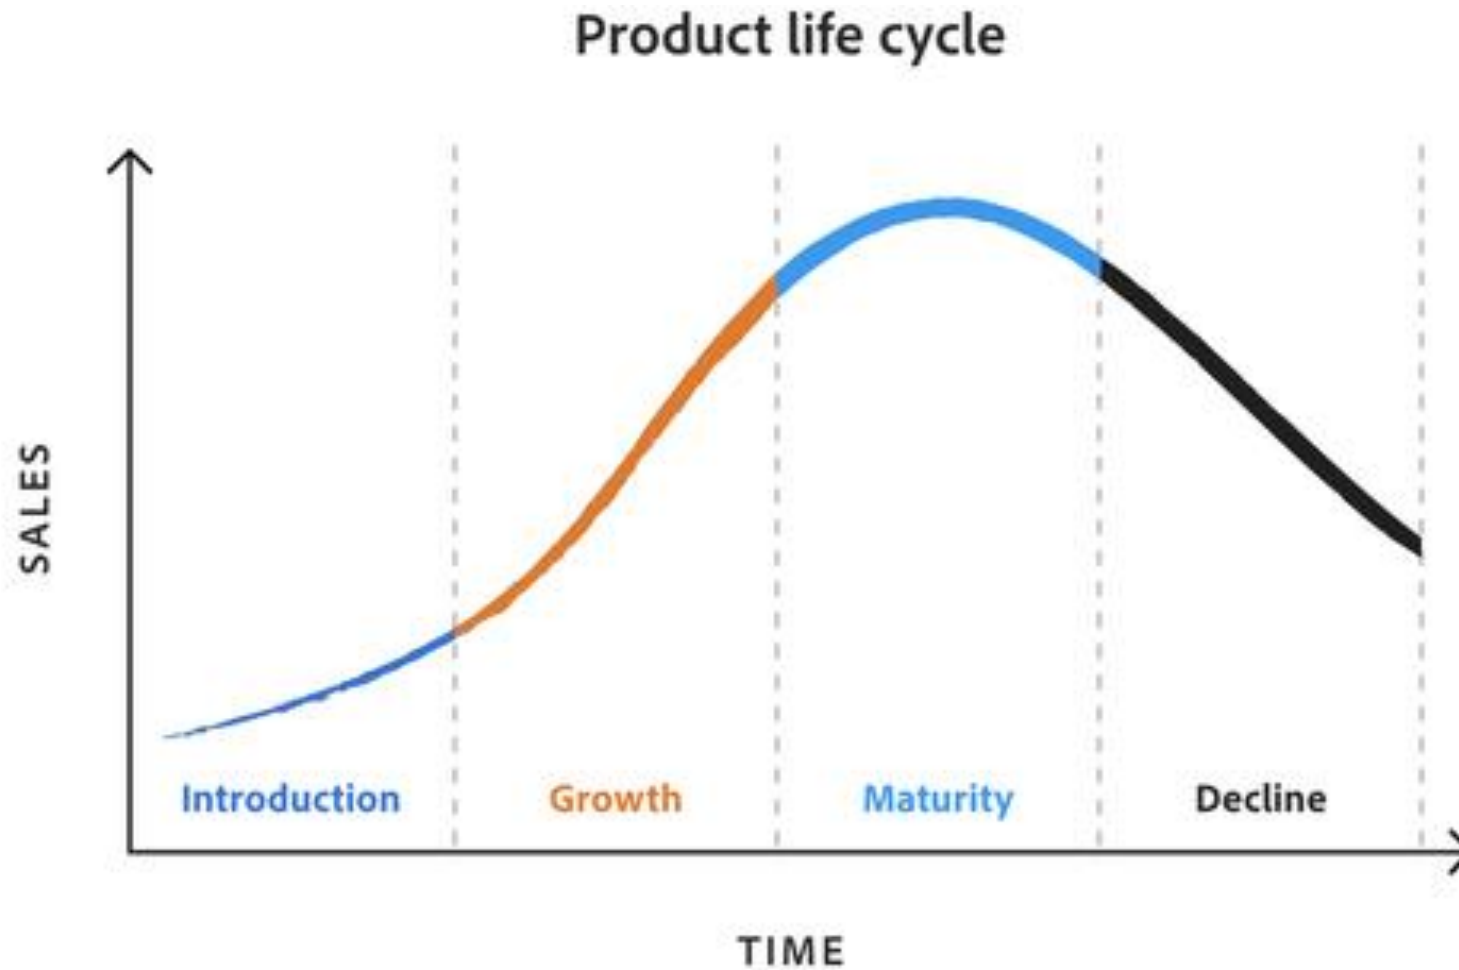

Psychographic

- Social class
- Lifestyle
- Personality

Behavioral

- Benefit
- Usage rate
- Loyalty status

Product Life Cycle

1. Product Development

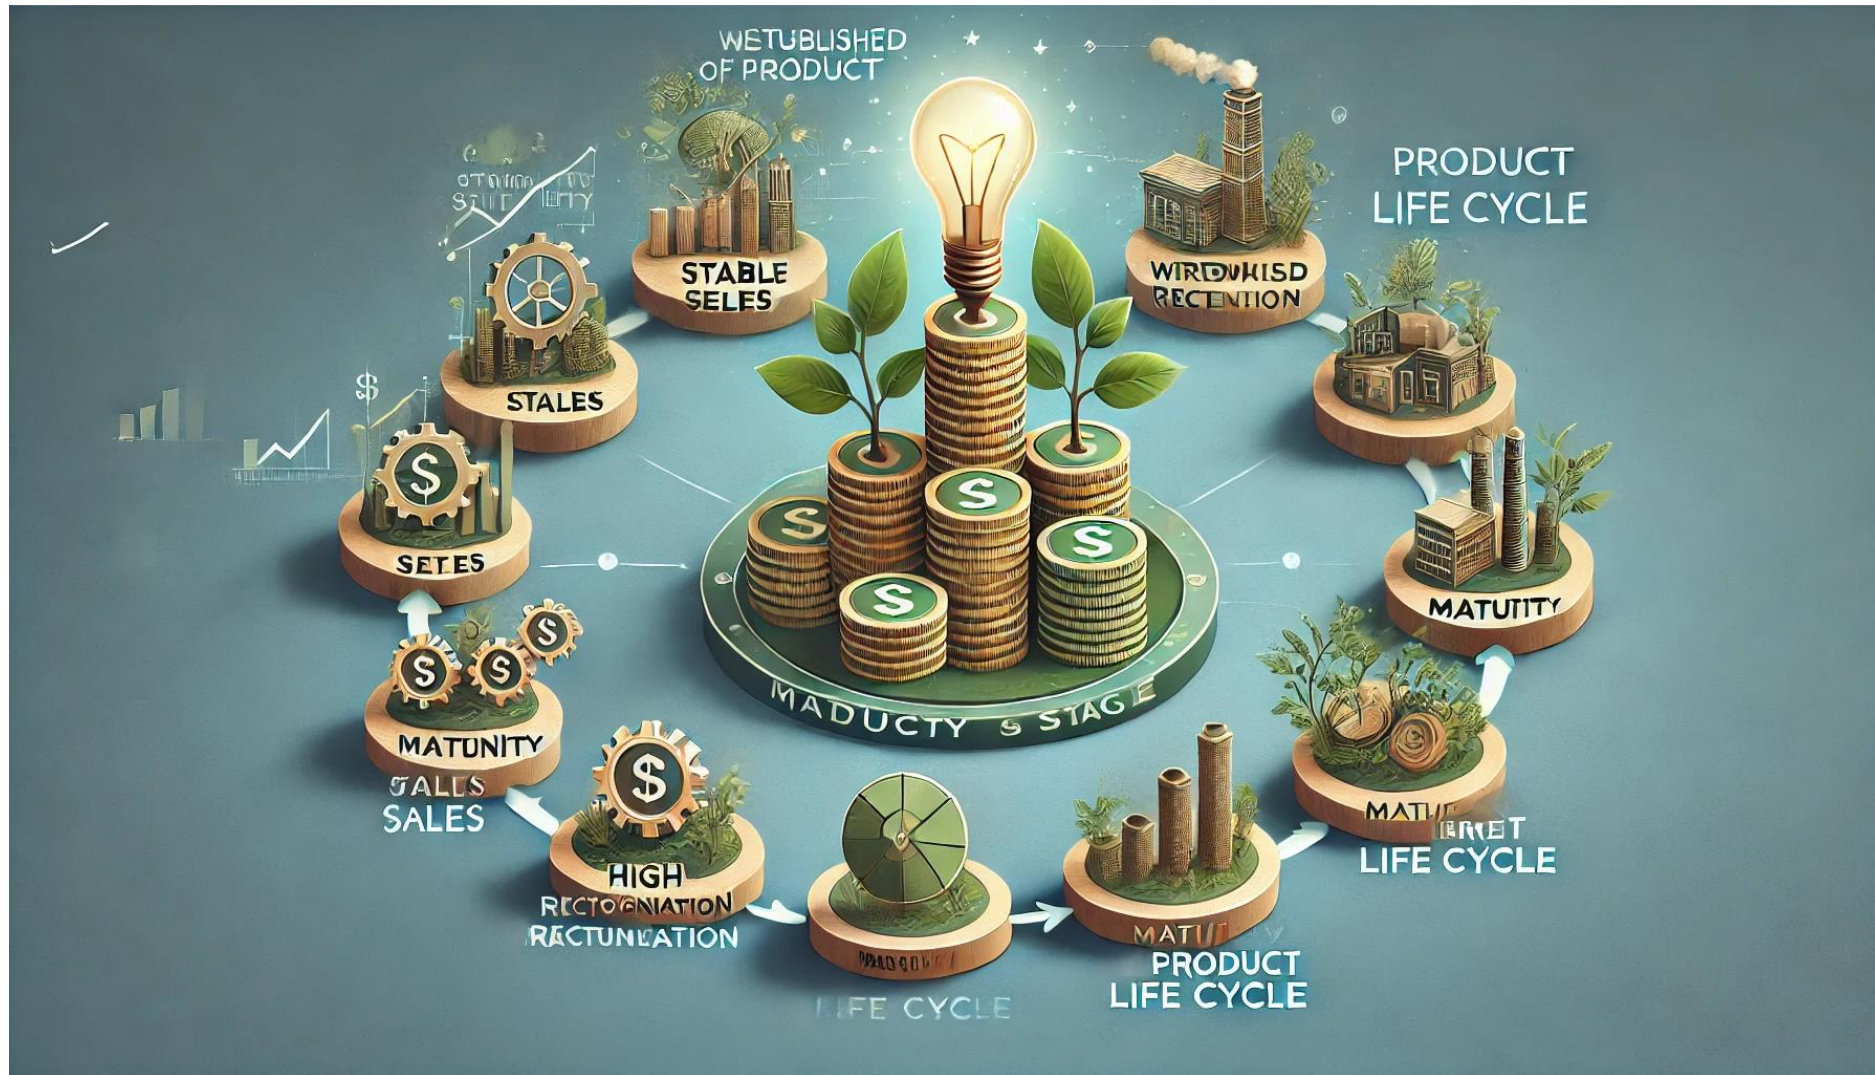

2. Introduction Stage

3. Growth Stage

4. Maturity Stage

5. Decline Stage
